ABOUT ME

Hey, I'm Nitin and I build value through design. I am currently learning and applying sleek user-friendly designs to make humans interact with computers easily. I specialize in utilizing data and research to build interfaces that users love.

EDUCATION

Amrita School of Computing

2021- 2025 | Computer Science Engineering - 8.35 CGPA

PROJECTS

2023 Jobify (Job search React Native App)

- First guided React Native Application built in a day that serves as a platform to find jobs
- [Project Link](#)

2023 Netflix UX Case Study

- Analyzed Netflix in India and work on a design addition that improves its user funnel
- Secured the 4th Rank among 17 solutions.
- [Problem Statement](#), [Behance](#), [Interface](#)

2022 Vehicle Pooling Application

- Came up with idea and led a team of 3 to design and build a working prototype
- Designed the application interface in Figma
- [Project link](#), [Interface](#)

WORK EXPERIENCE

Amrita School of Computing (CORE-Labs)

DEC 2022 - MAY 2023

- Virtual Labs: Worked as SDE intern for a project under the Ministry Of Education India (MoE) module called [Virtual Labs](#)
- Worked on designing and developing two lab modules under my University
- [Links](#)
