EXPERIENCE

LogicFlo AI

Jul 2026 – Present

Associate Product Manager (Founding Team)

Seed-Funded Startup (\$2.7M), Bangalore, KA

- Moved into product as the team scaled, holding the broadest context across product, engineering, and customers; work directly with both founders.
- Run product rituals: sprint planning, roadmap prioritization, standups, retros, and product reporting.
- Own intake and triage of pharma customer feedback, bugs, and feature requests into the backlog; track change requests and decisions.
- Build rapid AI prototypes and demos to validate ideas with customers before committing engineering time.
- Coordinate releases for an agent-driven content platform in a regulated industry, balancing traceability with delivery speed.

Software Development Engineer (Founding Team & First Hire)

Jul 2025 – Jul 2026

- Worked as an early-stage generalist across GTM, marketing, and customer engagement alongside the founders.
- Built AI and workflow automations that replaced manual internal processes.
- Moved to core engineering as the team grew: document generation pipelines, GMP document parsing (OCR), and presentation tooling in **React, Django, PostgreSQL, AWS, Vector Databases**.

Software Developer Intern

Aug 2024 – Jun 2025

- One of the earliest team members; shipped a functional MVP in one week.
- Built full-stack features and optimized AI workflows.

Virtual Labs, Ministry of Education

Dec 2022 – Apr 2024

Lead Software Engineer

Coimbatore, TN

- Led a team of five building Cryptography lab modules for a national Ministry of Education platform.
- Built OOP and Network Security modules used by 300+ students.

EDUCATION

Amrita Vishwa Vidyapeetham, Coimbatore

2021 – 2025

B.Tech in Computer Science and Engineering

GPA: 8.1/10 - First Class with Distinction

- Core Team Member of iDEA Club; contributed to 10+ collaborative software projects.
- Organized and coordinated 15+ tech events for Anokha 2023 with 2000+ participants.

SKILLS

Product & Operations: Product Operations, Program Management, Roadmap Prioritization, Sprint Planning, Intake & Triage, Change Management, Launch Coordination, Workflow Automation, Product Reporting, GTM, Stakeholder Management, Cross-functional Collaboration

Technical: Python, TypeScript, JavaScript, SQL, React, Next.js, Node.js, Django, Spring Boot, PostgreSQL, MongoDB, Vector Databases, LLM Agents, RAG, MCP, AWS, Docker, Git

Tools: Slack, Notion, Figma, Canva, Agile/Scrum

PROJECTS

- Connect** (2024-2025) – University collaboration platform (React, Spring Boot) with RAG and MCP chatbots.
- GRE Mock Test App** (2025) – Open-source timed mock test platform with LLM-based, JSON-driven test generation.
- DRIP** (2023) – Full-stack e-commerce platform with AI image generation; mentored junior developers.
